

## **TPPA It Ain't Over Rallies 14 Nov 2015 – What we want!**

### **Aotearoa NZ Peoples' TPPA Demands**

The Government has no democratic mandate to sign away our democratic powers in the TPPA. Before it takes any steps towards signing the agreement, the Government shall:

1. undertake independent human rights, health, environmental and climate change impact assessments of the potential effects of the TPPA on the people and land of New Zealand, and make this information publicly available.
2. support Local Government New Zealand to undertake an independent assessment of the impacts on local government of the TPPA, and consult fully with local government.
3. fully engage with its Treaty of Waitangi partners to hear and address their concerns about the TPPA and refer the text and any proposed legislation to the Waitangi Tribunal to conduct a full risk assessment of impacts on tangata whenua; iwi and hapū.
4. withdraw its consent to the secrecy pact among the twelve TPPA countries and release all background documentation relating to the negotiations.
5. initiate a full public and parliamentary debate on the TPPA, including Select Committee hearings with public consultation, and put the TPPA to a public referendum, before formal signing.

We will continue to mobilise New Zealand citizens in opposition to the TPPA until our demands have been met.

Go to Real Choice and sign on for their TPPA referendum from Monday 23 Nov to Monday 30 Nov: <http://www.realchoice.nz/>

Trans Pacific Partnership Agreement (TPPA) gives corporates a lot of power. TPPA text reveals that it will:

- put downwards pressure on workers' wages and conditions
- restrict internet freedom
- raise Pharmac costs
- increase costs on copyrighted materials
- allow GMO food to be grown and sold without mandatory labelling
- let foreign investors challenge our law through Investor-State Dispute Settlement (ISDS)
- restrict regulation on overseas investments
- undermine climate action and green jobs
- prevent new limits on mining, fracking and drilling
- lock in asset sales
- stop government restricting foreign investors buying our homes
- fuel financial crises
- stop 'buy-kiwi-made' policies
- restrict how local government acts, when making rules for the public interest

TPPA will give some NZ producers slightly improved market access for their exports, but are plenty more downsides. Why are we trading away our sovereign power to legislate in the public interest?

The TPPA hasn't yet been Signed, and won't be signed until at least February 2016.

**TOGETHER WE CAN STOP IT!**
